

THE HIGHWAY SAFETY GROUP

MAKING DRIVING SAFER, ONE SOLUTION AT A TIME

AUTOMATED TRAFFIC CONTROLLER CHECKPOINT/FLAGGER

The **Secur Stop Checkpoint/Flagger** has both a traffic light and a control arm/barrier that clearly closes the lane. Improving motorists and worker safety alike, while at the same time reducing liability and operating cost too.

- **Positive traffic control with manned, remote and automatic modes**
- **MUTCD compliant**
- **Robust design for continuous site use and or rental duty**
- **Never flat foam filled rubber tires**
- **3 year warranty**
- **Collapses for easy transport**
- **1350 lb. total weight**
- **Custom battery charger, 100 hours of use with a 12 hour charge**
- **Active intrusion alarm - 130db**
- **System prevents gate arm from descending on errant vehicle**
- **NEMA 12/UL listed electrical cabinets**
- **OIT allows for unlimited custom controller options**
- **25' hard-wired remote**
- **Wireless remote - 1 mile range**
